This is a genuine Rolex Submariner, model 16610, hat we've created for one of our clients. During this project we have refinished the dial in red, added diamonds and red rubies; and replaced original black bezel with red.

Dial manufacturing is a whole other world of watchmaking. It requires precision and patience, just like everything about watches. But my favorite part of what I do is the tools that I use! Introducing my "printer" - manufactured in 1920s in Germany (fully restored in 2018).

Just finished this!
This is one handsome Rolex Dial!
I attached white mother of pearl and added sapphires. This what will be installed on white gold GMT Master II

This is officially my favorite color for Rolex Datejust. It is not silver, it is "SLATE GRAY" - a darker version of silver.
In the past I have used the same color on Submariner and GMT models and I liked it. Today I made one for Rolex Datejust (model 16220).
